Some thoughts and thanks:

The music presented today was made available by the publishers and I would like to thank them for their generous support. Much of the new music available for band for 2010 is just arriving in Australia at present and I would urge you to investigate other works from the publishers represented in this session today. There are some outstanding works at higher grade levels and many works of equal quality that we just could not fit into the time available. I urge you to consult with your usual retailer for further information or chat with the publisher's representatives here today.

Thanks also to my colleagues who conducted and for you for coming along to this new day on the PD calendar.

Be sure to watch out for projects, old and new, from Young Conservatorium and Open Conservatorium, our new way to help meet your needs, especially in professional development. Please let me know if you would like the "Repertoire for Band 2010" or "Music for Orchestra" list that is in preparation at the moment.
